## **ANNUAL DISCLOSURE OF CRIME STATISTICS**

---

The Clery Act requires all institutions of higher education to publish an annual report of security policies and crime statistics. Information contained in this report was also solicited from the local city police forces for the purpose of identifying crimes that occurred on city streets and property adjacent to Cambridge College. This report is made available to all current students and employees; for a printed copy, visit the campus library. The report is also accessible via the website and distributed at new student orientation. The report is due by October 1st of each year and must contain certain crime statistics for the most recent three year reporting period. In addition to this report Cambridge College reports its crime statistics to the Department of Education, which posts the information to their web site at: <http://nces.ed.gov/collegenavigator/?q=Cambridge+institute&s=FL&id=454865#crime>.

A crime is reported when it is brought to the attention of a campus security authority or the local police by a victim, witness, other third party, or even the offender. Disclosure of crime reports must occur regardless of whether any of the individuals involved in either the crime itself, or in the reporting of the crime are associated with the College. Alleged criminal incidents will be reported even if no investigation by the police or campus security authority occurs that could result in a finding of guilt or responsibility.

### **CAMPUS SECURITY AUTHORITIES**

The U.S. Department of Education (34 C.F.R., §668.46, also defines “campus security authorities” as someone with “significant responsibility for student and campus activities”. Cambridge College further defines the following as “campus security authorities”:

#### *South Florida Campus*

Cambridge College of Healthcare & Technology  
Dominique Werner, Interim Campus Director  
5150 Linton Boulevard, Suite 340  
Delray Beach, FL 33484  
(561) 381-4990

#### *Atlanta Campus*

Cambridge College of Healthcare & Technology  
Nicole Warren, Campus Director  
5673 Peachtree Dunwoody Road, Suite 450  
Atlanta, GA 30342  
(404) 255-4500

#### *Orlando Area Campus*

Cambridge Institute of Health & Technology  
Dr. Vincente Quinones, Campus Director  
460 Altamonte Drive, 3<sup>rd</sup> Floor  
Altamonte Springs, FL 32701  
(407) 265-8383

## **REPORTING A CRIME**

In the event of an actual crime or emergency in progress, get to a safe place and call 911 immediately. Community members, students, faculty, staff, and guests are encouraged to report all crimes and public safety-related incidents to the Office of Campus Safety in a timely manner. Any suspicious activity or person(s) seen in the parking lots, person(s) loitering around vehicles, and person(s) inside the building should be reported. Do not hesitate to request maximum and immediate help by calling 911 especially if a crime or emergency is in progress. Campus Personnel will assist students that request help in notifying authorities.

## **CONFIDENTIAL REPORTING PROCEDURES**

If you are a victim of a crime and do not want to pursue action within the College or criminal justice system, you may still want to consider making a confidential report. With your permission, the Campus Security Authority can file a report on the details of the incident without revealing your identity. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the future safety of the campus community. With such information, the College can keep accurate records of the number of incidents involving students, determine where there is a pattern of crime with regard to a particular location, method, or assailant, and alert the campus community to potential danger. Reports filed in this manner are counted and disclosed in the annual crimes statistics of the institution.

## **CRIME DEFINITIONS**

The following are reportable crimes and their definitions. The definitions are taken from the Federal Bureau of Investigation's (FBI's) *Uniform Crime Reporting Handbook* (UCR).

- *Murder/ Non-Negligent Manslaughter*: the willful (non-negligent) killing of one human being by another. NOTE: Deaths caused by negligence, attempts to kill, assaults to kill, suicide, accidental deaths, and justifiable homicides are excluded.

This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. It is not necessary that the injury resulted from an aggravated assault when a gun, knife or other weapon is used which could or probably would result in a serious potential injury if the crime were successfully completed.

## **DRUG FREE CAMPUS AND WORKPLACE POLICY**

---

Cambridge College of Healthcare & Technology is committed to providing a drug-free campus and workplace environment. As an institution of higher education, the College recognizes the need to establish a drug and alcohol awareness program to educate faculty, staff and students about the dangers of drug and alcohol abuse. This policy is established as required by the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act of 1989.

### **DRUG FREE AWARENESS PROGRAM**

All employees and students are informed that the college has established a Drug Free Awareness Program informing students and employees via institutional catalog and posted flyers on campus about:

- Our policy of maintaining a drug-free school;
- Any available drug counseling, rehabilitation, and student assistance programs; and
- The penalties that may be imposed upon students for drug violations occurring on College property, as defined in the sanctions section below.
- Available referral to drug counseling and rehabilitation for employees can be obtained through United Way and students may contact the United Way for counseling and rehabilitation at 211 or [www.211.org](http://www.211.org). A list of resources is also available in Appendix V.

### **POSSESSION, SALE AND/OR CONSUMPTION OF NON-PRESCRIPTION AND ILLEGAL DRUGS**

No student may be in illegal possession of, deliver, dispense, distribute, administer, manufacture or wholesale any controlled substance, including marijuana, narcotics, hallucinogens, and other chemical analog or drug-related paraphernalia prohibited by State or Federal Drug Laws. (Federal law requires that students be informed that Federal and State laws prohibit possession and/or use of illicit drugs. Cambridge College complies with Federal and State laws regarding illicit drugs. The College reserves the right to investigate any suspicious activity regarding nonprescription and illegal drugs. Investigation may include but is not limited to classroom and/or vehicle inspection, canine drug scan or drug screening in cases of strong suspicion of drug use. (Refusal to submit to these measures at time of request may be viewed as strong evidence, which may result in suspension.)

Cambridge College has a “Zero-Tolerance” policy regarding the unlawful use, sale, possession or distribution of illegal drugs and alcohol on School property, or as part of any School activity. Misconduct violations relating to the Student, Faculty and/or Employee Codes of Conduct are subject to disciplinary actions. Consequences for inappropriate behavior can be severe, up to and including dismissal from the college. If any individual is apprehended for violating any alcohol or other drug related law while at a college location or activity, the college will fully cooperate with federal and state law enforcement agencies. The college abides by federal Drug-Free Workplace and Drug-Free Schools and Communities Act regulations regardless of individual state legalization.

## **SANCTIONS**

The following are prohibited under the Code of Conduct applicable to students, faculty and staff:

- Use, possession or distribution of narcotic or other controlled substances, except as expressly permitted by law, or being under the influence of such substances.
- Use, possession or distribution of alcoholic beverages, except as expressly permitted by law and Cambridge College regulation.

The sanctions listed below may be imposed upon any covered person found to have violated the Code of Conduct. The listing of the sanctions should not be construed to imply that covered persons are entitled to progressive discipline.

The sanctions may be used in any order and/or combination that Cambridge College deems appropriate for the conduct in question.

- a. Warning - A verbal or written notice that the respondent is in violation of or has violated Cambridge regulations.
- b. Probation - A written reprimand with stated conditions in effect for a designated period of time, including the probability of more severe disciplinary sanctions if the respondent is found to be violating any Cambridge regulation(s) during the probationary period.
- c. Cambridge College Suspension – temporary separation of the respondent from all Cambridge College locations.
- d. Cambridge College Expulsion - Permanent separation of the respondent from all Cambridge College locations.

### **Faculty and Staff**

Faculty and Staff of the institution are prohibited from:

- Performing school business under the influence of a controlled substance.
- Possession, use, sale of a controlled substance.
- Furnishing a controlled substance to a minor.

Sanctions for these violations could lead up to termination of employment. These sanctions are in addition to any criminal sanctions that may be imposed.

## STATE STATUTES

The State Statutes that govern sale and consumption of alcoholic beverages for both Florida and Georgia are listed in Appendix IV.

## DESCRIPTION OF HEALTH RISKS

Drugs and/or alcohol use contribute to (Nature 2010; 468:475):

- 33% of all suicides
- 33% of all fatal motor vehicle accidents
- 50% of all homicides

The following are descriptions of dangerous drugs:

**Alcohol** is a potentially addictive drug of significant physical and psychological consequence. Alcohol is a central nervous system depressant that affects all neurological functions. At relatively low levels it affects one's judgment and decision-making, and at higher levels it impairs the functioning of one's vital organs and can result in a coma or death. Alcohol is an irritant to the gastrointestinal tract and moderate overindulgence ordinarily results in nausea, vomiting, and diarrhea. In addition to these significant physical consequences, there are a number of less obvious consequences to alcohol use. For example, the effects of alcohol on sleep have been well documented. Consuming several drinks before bedtime has been found to decrease the amount of REM (rapid eye movement) or dreaming sleep. The consequences of being deprived of REM sleep are impaired concentration and memory, as well as anxiety, tiredness, and irritability. Additionally, research has demonstrated that alcohol tends to decrease fear and increase the likelihood that an individual will accept risks. This lack of inhibition and judgment is a major contributor to the extraordinarily high percentage of serious accidents and accidental deaths related to alcohol use. Prolonged and excessive use of alcohol usually causes progressively more serious erosion of the gastrointestinal tract lining ranging from gastritis to ulcers and hemorrhage. Damage to the pancreas is frequent among those who have used alcohol. Interestingly, while 10% of the adult population is estimated to be addicted to beverage alcohol, (i.e., they are alcoholics), this 10% of the population comprises 35% of those hospital in-patients who receive major surgery in any given year. Alcoholism is the third major killer in the United States, second to heart disease and cancer, and acute alcohol intoxication is the second leading cause of death by poisoning.

**Marijuana (Cannabis) (nicotina glauca)** is an illegal drug that impairs memory, perception, judgment, and hand-eye coordination skills. The tar content in cannabis smoke is at least 50% higher than that of tobacco and thus smokers run the added risk of lung cancer, chronic bronchitis, and other lung diseases. Recently, the medical community has diagnosed the existence of an AA motivational syndrome that affects moderate to chronic users and includes symptoms of loss of energy, motivation, effectiveness, concentration, ability to carry out long-term plans, and performance in school and work.

**LSD (Lysergic Acid Diethylamide)** is a semi-synthetic drug regarded as a hallucinogenic. Short-term effects of this drug are generally felt within an hour of consumption and may last from two to 12 hours. Physiologically the user experiences increased blood pressure, rise in body temperature, dilated pupils, rapid heartbeat, muscular weakness, trembling, nausea, chills, numbness, loss of interest in food, and hyperventilation. Fine motor skills and coordination are usually impaired, as are perception, thought, mood, and psychological processes. Long-term effects may include flashbacks, weeks and even months after taking the drug, mental illness, prolonged depression, anxiety, psychological dependence, and suicidal thoughts.

**PCP (Phencyclidine Hydrochloride)** is a white crystalline powder that was originally used as a local anesthetic, but due to extreme side effects, was discontinued in 1967. In humans, PCP is a difficult drug to classify in that reactions may vary from stupor to euphoria and resemble the effects of a stimulant, depressant, anesthetic, or hallucinogen. Short-term effects include hyperventilation, increase in blood pressure and pulse rate, flushing and profuse sweating, general numbness of the extremities, and muscular incoordination. At higher doses it causes nausea, vomiting, blurred vision, loss of balance, and disorientation. It produces profound alteration of sensation, mood and consciousness, and can cause psychotic states in many ways indistinguishable from schizophrenia. Large doses have been known to cause convulsions, permanent brain damage, and coma.

**Psilocybin** is a hallucinogenic drug occurring naturally in about 20 species of Mexican mushrooms and is also produced synthetically. It is a white powder made of fine crystals and distributed in tablet, capsule, or liquid form. Shortly after taking psilocybin, a user may experience increased blood pressure, rapid heartbeat, and an increase in body temperature, dry mouth, dilated pupils, and some degree of agitation or excitement. This is followed by a decrease in the ability to concentrate or stay in touch with reality. (Hallucinations, as well as altered perceptions of time and space, may occur.) The effects are usually shorter lasting than those of LSD, yet the dangers are very similar.

**Cocaine** is a naturally occurring stimulant drug which is extracted from the leaves of the cocoa plant. Cocaine is sold as a white translucent crystalline powder frequently cut to about half its strength by a variety of other ingredients including sugars and cleaning powders. It is one of the most powerfully addictive drugs in use today. Short-term effects of cocaine include constricted peripheral blood vessels, dilated pupils, increased heart rate and blood pressure. It also causes appetite suppression, pain indifference, possible vomiting, visual, auditory, and tactile hallucinations, and occasionally paranoia. Long-term effects include nasal congestion, collapse of nasal septum, restlessness, irritability, anxiety, and depression. Overdoses or chronic use may result in toxicity which includes symptoms of seizures followed by respiratory arrest, coma, cardiac arrest, and/or death.

**Cocaine Free-Base or Crack** is the result of converting street cocaine to a pure base by removing the hydrochloric salt in many of the "cutting" agents. The end result is not water soluble, and therefore, must be smoked. It is much more dangerous than cocaine because it reaches the brain in seconds, and the intensified dose results in a sudden and intense physical reaction. This response lasts a few minutes and is followed by deep depression, loss of appetite, difficulty in sleeping, feeling revulsion for self, and worries and obsessions about getting more crack. Consequently, users often increase the dose and frequency of use resulting in severe addiction that includes physical debilitation and financial ruin. Physiologically, seizures followed by respiratory arrest and coma or cardiac arrest and death may accompany long-term use.

**Amphetamines** are central nervous system stimulants that were once used medically to treat a variety of symptoms including depression and obesity. They may be taken orally, sniffed, or injected into the veins. Short-term effects disappear within a few hours and include reduction of appetite, increased breathing and heart rate, raised blood pressure, dilation of pupils, dry mouth, fever, sweating, headache, blurred vision and dizziness. Higher doses may cause flushing, rapid and irregular heartbeat, tremor, loss of coordination, and collapse. Death has occurred from ruptured blood vessels in the brain, heart failure, and very high fever. Psychological effects include increased alertness, postponement of fatigue, a false feeling of well-being, restlessness, excitability, and a feeling of power. Long-term effects include drug dependence and the risk of drug induced psychosis. Withdrawal includes extreme fatigue, irritability, strong hunger, and deep depression that may lead to suicide.

**Opioids** are substances that act on opioid receptors to produce morphine-like effects. Opioids are most often used medically to relieve pain. Opioids include *opiates*, an older term that refers to such drugs derived from *opium*, including morphine itself. Other opioids are semi-synthetic and synthetic drugs such as hydrocodone, oxycodone and fentanyl; antagonist drugs such as naloxone and endogenous peptides such as the endorphins. Accidental overdose or concurrent use with other depressant drugs commonly results in death from respiratory depression. Because of opioid drugs' reputation for addiction and fatal overdose, most are highly controlled substances. Illicit production, smuggling, and addiction to opioids prompted treaties, laws and policing which have realized limited success. In 2013 between 28 and 38 million people used opioids illicitly (0.6% to 0.8% of the global population between the ages of 15 and 65). In 2011 an estimated 4 million people in the United States used opioids recreationally or were dependent on them. Current increased rates of recreational use and addiction are attributed to over-prescription of opioid medications and inexpensive illicit heroin.

## **DRUG AND ALCOHOL COUNSELING**

More information about alcohol and drugs and the risks they pose to health is available from the Campus Director at each campus. Outside counseling services and support groups are available. See page 78 of our catalog for a list of resources. Hyperlinks are provided for easy access. On most sites you can enter your Zip Code for centers closest to you. A comprehensive list of resources are available in Appendix V.

## **PARENT NOTIFICATION FOR DRUG AND ALCOHOL VIOLATIONS**

In accordance with the Higher Education Amendments of 1998 to the Family Educational Rights and Privacy Act (FERPA) of 1974, Cambridge College has the right to notify the parent or legal guardian of a student who is under the age of 21 when the student has been found guilty through disciplinary channels of violating any Cambridge College rule regarding alcohol or illegal drugs. Cambridge College also reserves the right to notify parents at any time regarding matters of student discipline.

---

## **VIOLENCE AGAINST WOMEN ACT (VAWA)**

---

### **PURPOSE AND SUMMARY**

Cambridge College is committed to creating and maintaining a community where all individuals who participate in College programs and activities can work and learn together in an atmosphere free of harassment, exploitation or intimidation.

The College prohibits sexual harassment and sexual violence. Such behavior violates both law and the College's policy. The College will respond promptly and effectively to reports of sexual harassment and sexual violence and will take appropriate action to prevent, to correct, and when necessary, discipline behavior that constitutes sexual harassment and/or sexual violence, or otherwise violates the 2013 reauthorization of the Violence Against Women Act (hereinafter referred to as "VAWA Policy").

### **SCOPE OF POLICY**

The VAWA Policy applies to all Cambridge employees and students.

### **PROHIBITED ACTS AND DEFINITIONS**

In compliance with the Violence Against Women Act (VAWA), the VAWA Policy prohibits sexual harassment, domestic violence, dating violence, sexual assault, stalking and other acts that as defined below:

- **Sexual Harassment** is defined as unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature. Sexual harassment is conduct that explicitly or implicitly affects a person's employment or education or interferes with a person's work or educational performance or creates an environment such that a reasonable person would find the conduct intimidating, hostile, or offensive. Sexual harassment includes sexual violence (see definition below). The College will respond to reports of any such conduct in accordance with the VAWA or other applicable Policy. Sexual harassment may include incidents between any members of the College community, including faculty, staff or other employees, students or third parties such as, but not limited to: vendors, contractors, and visitors. Sexual harassment may occur in hierarchical relationships, between peers, or between individuals of the same sex or opposite sex. To determine whether the reported conduct constitutes sexual harassment, consideration shall be given to the record of the conduct as a whole and to the totality of the circumstances, including the context in which the conduct occurred.
- **Sexual Violence** is defined as physical sexual acts engaged without the consent of the other person or when the other person is unable to consent to the activity. Sexual violence includes sexual assault, rape, battery, and sexual coercion; domestic violence; dating violence; and stalking.
- **Domestic Violence** is defined as any felony or misdemeanor crime committed by a current or former spouse of the victim; person the victim has a child with; an individual who lives, or has lived, with the victim as a spouse, or a person similarly situated to a spouse; and any other person committing an act "against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction.
- **Dating Violence** is defined as abuse committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim.
- **Sexual Assault** occurs when physical sexual activity is engaged without the consent of the other person or when the other person is unable to consent to the activity. The activity or conduct may include physical force, violence, threat, or intimidation, ignoring the objections of the other person, causing the other person's intoxication or incapacitation through the use of drugs or alcohol, or taking advantage of the other person's incapacitation (including voluntary intoxication).
- **Forcible Sexual Offense** is defined as any sexual act directed against another person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent.
- **Non-Forcible Sexual Offense** is defined as unlawful, non-forcible sexual intercourse. There are two types of Non-forcible Sex Offenses:
  - **Incest** is non-forcible sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.
  - **Statutory Rape** is non-forcible sexual intercourse with a person who is under the statutory age of consent.
- **Consent is informed** is an affirmative, unambiguous, and conscious decision by each participant to engage in mutually agreed-upon sexual activity. Consent is *voluntary*. It must be given without coercion, force, threats, or intimidation. Consent means positive cooperation in the act or expression of intent to engage in the act pursuant to an exercise of freewill. Consent is *revocable*. Consent to some form of sexual activity does not imply consent to other forms of sexual activity. Consent to sexual activity on one occasion is not consent to engage in sexual activity on another occasion. A current or previous dating or sexual relationship, by itself, is not sufficient to constitute

consent. Even in the context of a relationship, there must be mutual consent to engage in sexual activity. Consent must be ongoing throughout a sexual encounter and can be revoked at any time. Once consent is withdrawn, the sexual activity must stop immediately. Consent cannot be given when a person is *incapacitated*. A person cannot consent if s/he is unconscious or coming in and out of consciousness. A person cannot consent if s/he is under the threat of violence, bodily injury or other forms of coercion. A person cannot consent if his/her understanding of the act is affected by a physical or mental impairment. For purposes of the Policy, the age of consent is the age consistent with Florida and Georgia Law.

- ***Incapacitation*** is defined as the physical and/or mental inability to make informed, rational judgments. States of incapacitation include, but are not limited to, unconsciousness, sleep, and blackouts. Where alcohol or drugs are involved, incapacitation is defined with respect to how the alcohol or other drugs consumed affects a person's decision-making capacity, awareness of consequences, and ability to make fully informed judgments. Being intoxicated by drugs or alcohol does not diminish one's responsibility to obtain consent. The factors to be considered when determining whether consent was given include whether the accused knew, or whether a reasonable person should have known, that the complainant was incapacitated.
- ***Stalking*** is behavior in which a person repeatedly engages in conduct directed at a specific person that places that person in reasonable fear of his or her safety or the safety of others.

## **CONSENSUAL RELATIONSHIPS**

The VAWA Policy covers unwelcome conduct of a sexual nature. Consensual romantic relationships between members of the Cambridge community are subject to other Cambridge policies outlined in the Employee and/or Student Handbooks. While a consensual romantic relationship between members of the College community may begin or continue for some time without issue, as relationships change they may evolve into situations that lead to charges of sexual harassment or sexual violence.

## **GENDER IDENTITY, GENDER EXPRESSION, OR SEXUAL ORIENTATION DISCRIMINATION**

Harassment that is not sexual in nature but is based on gender, gender identity, gender expression, sex- or gender-stereotyping, or sexual orientation also is prohibited by Cambridge, as part of its Nondiscrimination Policy, if it denies or limits a person's ability to participate in or benefit from College educational programs, employment, or services. While discrimination based on these factors may be distinguished from sexual harassment, these types of discrimination may contribute to the creation of a hostile work or academic environment. Thus, in determining whether a hostile environment due to sexual harassment exists, the College may take into account acts of discrimination based on gender, gender identity, gender expression, sex- or gender-stereotyping or sexual orientation.

## **REPORTING SEXUAL HARASSMENT OR SEXUAL VIOLENCE**

Any member of the Cambridge community may report conduct that may constitute a violation of VAWA, including sexual harassment or sexual violence, to any supervisor, manager, or the Title IX Officer. An individual who believes he or she has been subjected to sexual harassment or sexual violence may file a complaint or grievance pursuant to the applicable complaint resolution or grievance procedures as

outlined in the Employee and/or Student Handbooks. Such complaint or grievance may be filed either instead of or may be filed either instead of, or in addition to, making a report of sexual harassment to the Title IX Officer. A complaint or grievance alleging sexual harassment or sexual violence must meet all the requirements under the applicable complaint resolution or grievance procedure, including time limits for filing. If the person to whom harassment normally would be reported is the individual accused of harassment, reports may be made to any manager, supervisor, or designated employee. Managers, supervisors, and designated employees are required to notify the Title IX Officer or other appropriate official designated to review and investigate sexual harassment complaints when a report is received.

Any manager, supervisor, or designated employee responsible for reporting or responding to sexual harassment or sexual violence who knew about the incident and took no action to stop it or failed to report the prohibited act may be subject to disciplinary action.

Reports of sexual harassment or sexual violence should be brought forward as soon as possible after the alleged conduct occurs. Prompt reporting will better enable Cambridge to respond, determine the issues, and provide an appropriate remedy and/or action. All incidents should be reported even if a significant amount of time has passed. However, delaying a report may impede Cambridge's ability to conduct an investigation and/or to take appropriate remedial actions.

An individual who has made a report of sexual harassment or sexual violence also may file a separate complaint or grievance alleging that the actions taken in response to the report of sexual harassment or sexual violence did not follow the VAWA Policy. Such a complaint or grievance may not be filed to address a disciplinary sanction imposed upon the accused. Any complaint or grievance regarding the resolution of a report of sexual harassment or sexual violence must be filed within EEOC time limits for filing a charge. The time period for filing begins on the date the individual was notified of the outcome of the sexual harassment or sexual violence investigation or other resolution process pursuant to the VAWA Policy, and/or of the actions taken by the administration in response to the report of sexual harassment or sexual violence, whichever is the latter.

### **RESPONSE TO REPORTS OF SEXUAL HARASSMENT OR SEXUAL VIOLENCE**

The College will provide a written explanation of available rights and options, including procedures to follow, when the College receives a report that the student or employee has been a victim of domestic violence, dating violence, sexual assault, or stalking, whether the offense occurred on or off campus or in connection with any College program.

The Campus Director will issue a written statement of the findings of the investigation within fourteen (14) days of the completion of the investigation. The Findings Statement will be sent to the Complainant and Respondent via certified return receipt through the U.S. Postal System.

The Findings Statement will include a determination as to whether or not discrimination or harassment took place and any appropriate remedy or disciplinary actions up to and including termination of employment or expulsion from the College. Disciplinary actions shall be determined on a case-by-case basis. Discipline decisions that affect a student or students shall be made in accordance with the terms of the Student Code of Conduct found in the College's Catalog.

Upon a finding of sexual harassment or sexual violence, College may offer remedies to the individual or individuals harmed by the harassment and/or violence consistent with applicable complaint resolution and grievance procedures. Both the complainant and the alleged perpetrator will be notified, in writing, about the outcome of the complaint and any appeal.

### **RETALIATION**

The VAWA Policy prohibits retaliation against a person who reports sexual harassment, sexual violence or other types of harassment, or someone who assists another person with a VAWA complaint, or a person who participates in any manner in an investigation or resolution of a complain under the VAWA Policy. Retaliation includes threats, intimidation, reprisals, and/or adverse actions related to employment or education.

### **BYSTANDER INTERVENTION**

Cambridge supports safe and positive options that may be carried out by an individual(s) to prevent harm or intervene when there is a risk of dating violence, domestic violence, sexual assault, or stalking.

### **PRIVACY**

Cambridge College shall protect the privacy of individuals involved in a report of sexual harassment or sexual violence to the extent permitted by law and College policies. A report of sexual harassment or sexual violence may result in the gathering of extremely sensitive information about individuals in the College community. While such information is considered confidential, College policy regarding access to public records and disclosure of personal information may require disclosure of certain information concerning a report of sexual harassment or sexual violence. In such cases, every effort shall be made to redact the records in order to protect the privacy of individuals.

An individual who has made a report of sexual harassment or sexual violence may be advised of sanctions imposed against the accused when the individual needs to be aware of the sanction in order for it to be fully effective (such as restrictions on communication or contact with the individual who made the report). In addition, when the offense involves a crime of violence or a non-forcible sex offense, the Family Educational Rights and Privacy Act permits disclosure to the complainant the final results of a disciplinary proceeding against the alleged accused, regardless of whether the Cambridge concluded that a violation was committed. Information regarding disciplinary action taken against the accused shall not be disclosed without the accused's consent, unless permitted by law as noted above, or unless it is necessary to ensure compliance with the action or the safety of individuals.

### **REQUESTS FOR CONFIDENTIALITY**

Confidential resources, outside/third party counseling sources are available for individuals who may be interested in bringing a report of sexual harassment or sexual violence with a safe place to discuss their concerns.

Individuals who consult with confidential resources shall be advised that their discussions in these settings are not considered reports of sexual harassment or sexual violence and that without additional

action by the individual, the discussions will not result in any action by the College to resolve their concerns.

An individual's requests regarding the confidentiality of reports of sexual harassment or sexual violence will be considered in determining an appropriate response; however, such requests will be considered in the dual contexts of the College's legal obligation to ensure a working and learning environment free from sexual harassment and sexual violence and the due process rights of the accused to be informed of the allegations and their source. Some level of disclosure may be necessary to ensure a complete and fair investigation, although the College will comply with requests for confidentiality to the extent possible.

### **EMPLOYEE DISCIPLINARY ACTIONS FOR VIOLATIONS OF VAWA POLICY**

Cambridge reserves the right to determine on case-by-case basis, with regard to proven or admitted violations of the VAWA Policy, disciplinary action to be taken with regard to any College employee.

Disciplinary action resulting from a determination that a violation of the VAWA policy occurred, may include but are not limited to: unpaid suspension from work, altered work schedule, training or education specific to the offense, and termination of employment without the opportunity to re-apply for future employment. Cambridge, and at its sole discretion, may also combine various disciplinary actions it deems appropriate for the violation finding.

The final decision for any disciplinary action taken will be made at the sole discretion of the College's responsible officers and communicated by the Title IX Coordinator. This decision may not be appealed.

### **STUDENT DISCIPLINARY ACTIONS FOR VIOLATIONS OF VAWA POLICY**

The College reserves the right to determine on case by case basis, with regard to proven or admitted violations of the VAWA Policy, disciplinary action to be taken with regard to any Cambridge student.

Disciplinary action resulting from a determination that a violation of the VAWA policy occurred, may include but are not limited to: suspension from school, altered class schedule, training or education specific to the offense, community service requirements at a location determined by the school, and withdrawal from the school without the opportunity to re-enroll. Cambridge College, at its sole discretion may also combine various disciplinary actions it deems appropriate for the violation finding. The final decision for any disciplinary action taken will be made at the sole discretion of the College's responsible officers and communicated by the Title IX Coordinator. This decision may not be appealed.

### **ADDITIONAL ENFORCEMENT INFORMATION**

The Federal Equal Employment Opportunity Commission (EEOC) investigates complaints of unlawful harassment, including sexual violence, in employment. The U.S. Department of Education Office for Civil Rights (OCR) investigates complaints of unlawful harassment and sexual violence by students in educational programs or activities. These agencies may serve as neutral fact finders and attempt to facilitate the voluntary resolution of disputes with the parties. For more information, contact the nearest office of the EEOC or OCR.

The information included in the warning may include but is not limited to the type of incident, the location of the incident, the date and time of the incident, and how the campus community should respond. Distribution will be made through email and written notifications placed strategically throughout campus. The warning will only be issued after it is determined that it will not compromise efforts to assist a victim or to contain, respond to or otherwise mitigate the emergency.

## **SEVERE WEATHER & NATURAL DISASTERS**

### **HURRICANE**

Hurricanes are powerful and dangerous storms, and proper precautions and preparation should be taken. Here are some things you can do at the beginning of the season, to help make your home and family "hurricane resistant". To do list:

- Prepare your survival kit with enough supplies to last you, your family, and pets for at least three days.
- As you purchase items on the list, check them off until your kit is complete. Next to the list, write down where the kit and any separate items are stored. Even if you plan to evacuate, you need to have these supplies with you.
- Update your homeowners insurance; make sure you are covered for wind and flood damage. If you rent, purchase renter's insurance. Know your deductibles, they may be higher than you think!
- Find out the elevation of your home and how the surrounding area would flood in a hurricane.
- Videotape or take a written inventory of all your belongings.
- Keep your yard free of debris. Cut down any dead tree limbs. Remove weak, damaged or diseased trees.
- If you do not have pre-installed shutters, measure all windows and doors for plywood covers. Pre-cut the plywood and install anchors.
- Purchase a kit to brace your garage door, especially if your home was built before 1993.
- Drive through your designated hurricane evacuation route. Consider alternative routes as you go.
- Locate the nearest public shelters. Not all shelters will be opened during a hurricane. Be aware of several alternatives.
- Purchase a battery operated weather radio with the tone alert.
- Make sure your street address is clearly marked on your home.

## **BEFORE, DURING AND AFTER THE STORM**

**When a Hurricane Watch is issued:** A hurricane watch means that hurricane conditions are possible within the next 36 hours.

- Clear your yard of potential flying debris, including lawn furniture, toys, trash cans, etc.
- Prepare your swimming pool, by lowering the water level by one foot, to accommodate heavy rain.
- Board up windows and other openings of your home with at least 5/8" thick plywood.
- Gas up your car and check the tires and fluids.
- Get extra cash. Banks and ATM's will not function if power is lost.
- Anchor small boats or move them to a safe place.
- Locate utility cut-off valves. If you are evacuating, turn them off.
- Store plenty of water.
- Turn your refrigerator to the coldest settings. Freeze plastic soda bottles with water.

**When a Hurricane Warning is issued:** A hurricane warning means hurricane conditions are expected in less than 24 hours.

- Shutter and brace windows and doors immediately.
- Secure boats.
- Gather important documents, including insurance papers, phone numbers and ID.
- If you are ordered to evacuate, do so quickly.

### ***If You Stay Home:***

- Designate a safe room in your home. It should be an interior room with no windows on the lowest level. Often a bathroom or large closet will be the best place to stay.
- Make sure you have your supply kit stocked ready and stored in your designated safe area.
- Keep your family in one location.
- Turn off your water at the main valve leading into your home. If public water or wells become contaminated, the water in your pipes and water heater will still be safe to drink.

### ***If You Evacuate:***

- Take all of your family's important documents with you.
- Take your hurricane survival kit with you.
- Notify friends and relatives of your plans.
- Turn off your utilities and seal your home as tightly as possible.
- Leave as quickly as possible.
- If you are headed for a shelter, make sure it is open before leaving your home.

### **DURING THE STORM**

- Stay indoors at all time and away from windows, even if they are shuttered.
- Listen to your local media source for the latest information on the storm.
- If the eye of the hurricane passes right over you, it will become relatively calm. Stay inside! The other half of the storm will return at any minute. Do not go out until the "all clear" is given.

### **AFTER THE STORM**

- Stay informed by listening to your local media source or your NOAA Weather Radio. Begin to move about very carefully and survey your situation. More people are killed and injured during the clean up after a hurricane than during the storm itself.
- If you have evacuated, do not attempt to return home until officials announce that it is safe.
- Do not eat any food in damaged containers or in containers that have come in contact with flood waters.
- Do not use public water for cooking or drinking until you are notified it is safe.
- Avoid traveling if at all possible. Roads may be damaged, washed out, or littered with debris.
- If phones are working, use them only for emergencies.
- Do not stay in structures that are severely damaged or in danger of collapsing.
- Notify your insurance agent. Things will go more smoothly if you have documentation, pictures and/or video to support your claims.

## **SCHOOL CLOSURE DUE TO WEATHER EMERGENCY**

In the event of a weather emergency such as a hurricane, Cambridge will constantly evaluate the storm's progress. When evaluating whether to close, Cambridge will typically follow the actions taken by the local School District. In the event of a closing, students and staff will be notified via the website, area news stations and the Student Portal Alert System.

## **SUSPICIOUS PERSON**

If you see a suspicious person on campus, contact the campus security officer and in extreme cases call 911. Report as much information as possible including:

- What the person(s) is/are doing
- The location
- Physical and clothing description of those involved
- Vehicle description and license plate number, if appropriate
- Direction of travel when last seen, etc.

Assist Safety Officer or Police when they arrive by providing all information that may be of use.

If there is gunfire or an explosion, you should take cover immediately using all available concealment. If you are in an office, lock the door and take cover in an area where you will not be visible. Avoid all communications until it is safe to do so. After the disturbance, seek emergency first aid if necessary.

### **DO NOT:**

- Approach the suspicious person;
- Allow them access into a locked or secured area;
- Block their access to an exit.

## **OTHER EMERGENCIES**

Other emergencies will be designated as a potential health or safety risk by the Campus Security Authorities will be handled based on the emergency. The Campus Security Authorities will determine such a situation exists by accessing the potential immediate risk to students, faculty and staff of the college. If notification of the students is required and there is no situation where notification would, in the professional judgment of the responsible authorities, compromise efforts to assist a victim or to contain, respond to or otherwise mitigate the emergency, a list of names for that location will be pulled via the Campus Management Software and an email will be sent to all student's email account, created for them upon their first term of enrollment by someone on the Campus Security Team.

## **ANNUAL EMERGENCY RESPONSE TEST**

The emergency response and evacuation procedures will be tested annually. On even years the testing will be conducted during spring term and on odd years the testing will be completed during fall term so that the majority of students might benefit from the testing and information distribution. Tests may be announced or unannounced based on the test done for that year. Publication of the emergency plan will be posted via an email within a month of the test procedure. The test will be documented and evaluated after the test by the Campus Security Authorities.

## **NOTIFICATION**

In the event that a situation arises, either on or off the Cambridge campus, that, in the judgment of the Campus Security Authorities, constitutes an ongoing or continuing threat, a campus wide "timely warning" will be issued. The warning may be issued through several forms of communication, such as: The Student Portal System Alert, an email to students, and a Text Message for those students that have opted in.

Text Messages will only be used in emergency situations not for testing purposes. Emails and alerts on the Portal System will be used in testing.

Anyone with information warranting a timely warning should report the circumstances to Campus Security or their Instructor.
